SUMMARY

I am a highly motivated and adaptable computer science engineering student with a profound enthusiasm for web development and competitive coding. Throughout my academic journey, I have acquired proficiency in a wide array of programming languages and technologies. I am dedicated to my continuous growth and success in the dynamic realm of technology.

EDUCATION

United College of Engineering & Research, Prayagraj
Bachelor of Technology(CSE) - 8.53 SGPA
2019 – 2023

Divine Sainik School
Intermediate(12th) - 87%
2018 – 2019

TECHNICAL SKILLS

- Full Stack Java Development
- HTML, CSS, Bootstrap
- Angular, Express, React JS
- Node.js, SpringBoot
- PHP
- MySQL
- C,C++,Python
- Data Analysis

CERTIFICATIONS

- Competitive Coding by United Global Info ServicesLtd.
- Full Stack Web Development by Internshala
- Python by Coursera
- Data Analysis by Cognitive Classes

ACHIEVEMENTS

- Secured second position in The Web-Dev Battle organized by Internshala.
- Member of national level trust "Aadishree Foundation"
- Certificate of Appreciation for performance in Job-a-thon by GeeksforGeeks

BOOTCAMPS

- Python and Machine Learning at Shape AI in 2021
- JavaScript and React JS at Shape AI in 2021

PROFESSIONAL EXPERIENCE

Virtusa Corporation
Intern-Delivery | January 2023-April 2023
- Excelled in Java and applied advanced concepts in Spring MVC, Hibernate, REST API and Spring Boot with Java based projects.
- Demonstrated problem-solving process by resolving coding issues promptly, optimizing application performance, and enhancing user experience.
- Applied ReactJS to develop basic projects, enhancing familiarity with modern frontend frameworks and effectively translating design concepts into functional user interfaces.

Ankur Web Technology
Web Developer Intern | April 2022-September 2022
- Developed a live website and gained appreciation for hardwork and efficiency.
- Worked with tools like HTML, CSS, Bootstrap, PHP, MySQL, JavaScript and AJAX.

PROJECTS

Inventory Store and Management (2022)
- **Description**: Streamlining college store operations with web-based efficiency: request management, inventory tracking, feedback system, and more for staff ease and transparency.
- **Tools/ Technologies used**: HTML, CSS, Bootstrap, PHP, AJAX, JavaScript, MySQL

Shop Today (2021)
- **Description**:An all-in-one e-commerce platform offering product buying, selling, and website design frameworks, complete with expense management features.
- **Tools/ Technologies used**: HTML, CSS, Bootstrap, PHP, MySQL

Expense Manager(2020)
- **Description**:It is a fully responsive full-stack website where user can create profile and can manage their expenses as per their need.
- **Tools/ Technologies used**: HTML, CSS, Bootstrap, PHP, MySQL

STRENGTHS

- Adaptable to any environment and consistent
- Strong organizational and time-management skills
- Ability to work both independently and as part of a team
- Problem solving
